SUMMARY

BBA graduate with 2 years full time in application support at Baton Systems, a FinTech firm serving Tier-1 banks. I investigate production incidents, write root cause analyses and translate between engineers and clients, and I'm now moving into Business Analyst roles.

EXPERIENCE

- **Baton Systems**
  Application Support Engineer **Jan 2023 – Present**
  *Post-trade settlements platform supporting **$20–30B in daily settlements** · clients include JPMorgan, Citi, HSBC and Goldman Sachs*
  - Primary liaison between engineering teams and **Tier-1 bank clients** during production incidents.
  - Gather, clarify and communicate **requirements** across technical and non-technical stakeholders.
  - Write **Root Cause Analysis** reports that turn system failures into clear findings for senior management and clients.
  - Maintain **runbooks and process workflows** that **cut incident resolution time** and speed up onboarding.
  - Analyse **ticket trends** across client environments to catch process gaps before they escalate.
  - Coordinate with DevOps, QA and product teams on **Kubernetes/EKS** environments.
  - Track **SLA compliance** and report status to client stakeholders at major global banks.
- **Nester's Hub**
  Digital Marketing Intern **2022 – 2023**
  - Analysed campaign data (**ROAS, CPL, CTR**) in **Meta Ads Manager** and **Google Analytics** and presented insights to stakeholders.
  - Ran **A/B tests** on ads and landing pages and turned the results into revised campaign briefs.
  - Produced competitor and market research reports that shaped quarterly campaign strategy.
  - Managed client relationships and prospecting outreach to drive repeat engagement.
- **Ullas Trust (NGO)**
  Digital Marketing Intern **2021 – 2022**
  - Ran paid digital campaigns on a tight NGO budget, meeting awareness and outreach goals.
  - Improved search visibility through on-page and off-page SEO.

EDUCATION

- **St. Joseph's College of Commerce** **Bangalore, Karnataka**
  BBA, Marketing & Business Management **2021 – 2024**
  - **1st place**, Inter-Collegiate Marketing Fest (all Bangalore colleges): live campaign strategy and pitch.
  - Captain, eSports team · Member of the Finance Club, Quiz Club and Business Team.

SKILLS

- **Business Analysis:** Requirements Gathering, User Story Writing, Gap Analysis, Root Cause Analysis, Process Documentation
- **Stakeholder Management:** Client Communication, Cross-functional Coordination, Executive Reporting, Escalation Handling, SLA Management
- **FinTech Domain:** Post-Trade Settlements, Collateral Management, Trading Workflows, Financial Infrastructure, Incident Lifecycle
- **Tools:** JIRA, Confluence, Excel, Kubernetes/EKS
- **Marketing & Analytics:** Google Analytics 4, Meta Ads Manager, A/B Testing, Canva

ACHIEVEMENTS

- **National eSports Athlete of the Year**, 2019 and 2020: one of fewer than 10 players in India recognised in both years.
